ECFA WEBSITE

Public Features Guide

A practical guide to fixtures, results, news, competitions, teams, players, referees, records, downloads and ways to contact the league.

WEBSITE	**https://ecfa-website.vercel.app**
GUIDE UPDATED	**14 October 2026**

1. Getting around the website

The website is designed for phones, tablets and computers. The main navigation bar scrolls horizontally on smaller screens, so every section remains available without crowding the display.

Match Hub

The front page for fixtures and results, organised by match date. The Latest News shortcut beside the heading opens the news section.

News

Read published ECFA stories with dates, pictures and links to related articles. The most recently published story appears first.

Competitions

League tables, cup structures, fixtures, results and competition detail.

Goalscorers

All goals, League and Cup views with season history and player links.

Stats

Current-season team goals, clean sheets, wins and streak records across all competitions, League or Cup.

Honours and History

Past winners, team honours and previous-season records.

Teams and Referees

Explore clubs, player records and referee profiles. Referees has its own main navigation tab.

Downloads and Search

Export public data or search names, teams, competitions and pages.

Tip: On a phone, swipe the top navigation left or right to reveal additional sections.

2. Match Hub

The Match Hub brings the main matchday information together in one place.

Browse by date

Move between available matchdays to see a particular weekend. Back from a match restores the date you were viewing. Opening Match Hub through the site navigation starts at the upcoming games.

Upcoming fixtures

See the competition, home and away teams, badges, kick-off time, venue and appointed referee when available.

Results and scores

Completed games show the score and link to an individual match page.

Match details

Follow club names, scores, competitions, scorers, venues and referees into their recorded history. Match previews link to previous meetings. Back restores your selections and position. Venue history supports season filters from 2025/26.

Current standings

A league-table snapshot provides a quick view of team positions and performance.

Competitions this week

Compact links below the matchday fixtures open each competition with games scheduled in the selected Monday-to-Sunday week, where you can browse its tables, fixtures and results.

Weekend context

The front page prioritises upcoming games or recent results depending on the day. On Knockout Cup quarter-final dates, a winner path tree appears below the usual fixtures and results.

On This Day and Matchday Graphics

Two compact shortcuts at the top of Match Hub open these public features.

On This Day

Rediscover recorded matches on this calendar date in previous years, across current and historic seasons. A featured match and other results link to match details, teams and competition history.

Explore another date

Choose a date or return to Today. When there are no exact-date results, the page clearly switches to This week in ECFA history, using matches within three days of the selected date.

Create a match graphic

Individual Matchday Graphics lists only scheduled games in the next seven days, including today, searchable by team, date or competition. Above upcoming fixtures on Match Hub, Share fixtures graphic creates a branded image for the selected matchday with badges, kick-off times, venues and referees. Open a game and choose Share graphic. Administrators can also open the graphic from a saved fixture.

Weekend results and league table

In Matchday Graphics, select a weekend to see both Weekend results and the League table after this weekend together. Toggle Include scorers on results to add recorded goalscorers. Share both graphics sends the displayed results image and table together on supported devices. The default is the previous completed Saturday and Sunday. Table snapshots use currently recorded results through that Sunday, excluding later matches. These round-ups cover the current season; large result lists are split across multiple images.

Share into your chats

Choose square or story size. Graphics show ECFA branding, team badges, published sponsors, and fixture details, appointed referee, last-five form (green W, amber D, red L; most recent on the right), or recorded full-time scores and scorers. Form uses completed matches across competitions before the fixture date. Share image opens supported device sharing; Download image and Copy match link are also available. Unavailable badges use initials.

3. Competitions, tables and cups

Competition pages separate the league and cup tournaments while keeping their fixtures and progress easy to follow.

League standings

View played, won, drawn, lost, goals for, goals against, goal difference and points.

League fixtures and results

Open match details from a score or date; club and venue names open their histories. Table figures link to the supporting games, respecting competition, group, result and historical table date. Cup bracket ties open their matches.

Cup progress

Follow group tables and knockout fixtures. Gold labels in Match Hub previews link to the relevant group, cup draw or league table.

Competition switching

Move between the Appin Sports League, ECFA Knockout Cup, ECFA League Cup and Brian Latto Cup.

4. Goalscorers and player information

Season scorer tables

Choose All goals, League or Cup and select a season. The mobile-friendly table shows name, team, league goals, cup goals and overall goals. Tap any heading to sort; tap again to reverse the order. Earlier seasons are recorded under League.

All-time scorers

Combine every recorded ECFA season into an overall career goals table with competition totals.

Goalscorers sponsors

Game of Throwing Edinburgh and Escape Edinburgh appear together below the Goalscorers heading.

Player profiles

View a player’s current team, goals, yellow and red cards, and recorded transfers with dates, previous clubs and new clubs. Club names open their team pages.

Scoring history

Goals are totalled by season and the club represented in each match. Transferring a player keeps previous goals and cards with their original clubs.

Match-linked goals

Player scoring history links to recorded matches from 2025/26 onwards, including players outside current squads. Follow team names, season totals and goals by opponent into further history. Earlier totals do not infer match links.

Name search

Find current players and historical scorers using full or partial names.

5. Teams

Team overview

Use Select a team to choose a current league club or a previous team. Contrasting headings separate current and previous teams. Former clubs are marked as no longer in the league and open their historical records.

Team websites

Select a club to see up to five website or social links on its team profile. Links appear only for the selected club. Links are labelled Facebook, Instagram, X, Own Website or Other when available.

Form and fixtures

See the next five fixtures with home or away, competition and venue. Upcoming lists show these details too and default to the Appin Sports League. Choose another competition or all, filter by month or date, and share the list as a picture.

Results by season

Switch between the current campaign and available historical seasons. The team page’s recent results mark the club as home or away and show the recorded venue.

Team scorers and honours

See season-by-season scoring totals, with opponents, goals and match links from 2025/26 onwards. Use View final on a cup honour to open its recorded final, including on former team profiles. After viewing a match, Back restores the selected team, filters and place on the page.

Head-to-head comparisons

Filter by season and sort each column. Opponent names open club history; played, win, draw, loss and goal figures open the supporting matches. Statistics and streak figures also link to recorded games.

6. Honours and historical records

Major honours

Current and former winners link to club history, recorded cup honours link to finals, and season labels open the archive. A season-by-season grid records winners of the League, League Cup, Knockout Cup and Brian Latto Cup. Cup final results below the honours tables can be filtered by season, competition and team.

All-time honours table

Compare clubs by competition wins and total major honours.

Historical seasons

Open a season and switch between League table, Competitions and Scorers. Table history lets you select a recorded match date, including 2025/26; the official final table remains the default where held. Archived tables use the current-table layout with club badges where available and the same position, played, won, drawn, lost, goals for, goals against, goal difference and points columns. Earlier tables are calculated from recorded results and exclude historical points adjustments. Compact competition rows open their match history, with an option to view all season results. Select a result score to open the recorded match details, including match-linked scorers for 2025/26. Filter each season's fixtures by the teams recorded in that season, including clubs no longer active.

Linked team records

Team names in honours and historical areas link back to current team pages when a match is available.

7. Referee information

The referee section links match officials to their recorded appointments and fixture history.

Officials directory

Open Referees in the main navigation. Select a referee's name or photo to view their profile and recorded games.

Games officiated

Review matches, dates, teams, scores, competitions and venues.

Venue and team breakdowns

Open clubs and venues from referee breakdowns. Select an appointment count to review that official's matching games for the selected season, then open match details.

About the referee

Profiles have space for a photograph, an introduction and SurveyMonkey questions and answers added by the league.

Season selection

Choose the current season, last season or all available seasons.

Private referee login

Use Referee login in the page footer, alongside Admin and Manager sign in. Referees sign in with the league portal code to view all referees' yellow and red card totals, averages, player and team breakdowns and match details from last season onwards where records are available. Card summaries require login.

8. Sponsors

The sponsors page groups sponsors beneath the competitions they support. Each entry includes a short summary, an optional logo badge, a link to the sponsor’s website and a direct route to the sponsored competition.

9. Public downloads and reports

The Downloads area makes ECFA information reusable without requiring administrator access. Published league files can be viewed online, downloaded, or offered with both choices. Availability depends on the records held for each season.

Current-season scorers	Each scorer and their current-season goal total	CSV / Excel
Historical scorers	Player, team, season and recorded goals	CSV / Excel
Current fixtures and results	Dates, teams, scores, venues, referees and competition details	CSV / Excel
Previous-season results	The available historical fixture and result archive	CSV / Excel
Referee match statistics	Games, teams, venues and results; card summaries require login	CSV / Excel
Player scoring report	Selected player, current team, fixture-linked goals and season totals	PDF / Word
Private referee card dashboard	Code-protected card totals, averages and player, team and match breakdowns	Referee login
Published league files	Handbooks, guides and other documents uploaded by ECFA administrators	View / Download
Large public-data export	A broad collection of relevant public ECFA records	CSV / Excel

Using downloads: Where available, select View to read a file without saving it to the device, or Download to keep a copy. CSV files suit data analysis and imports; Excel files open as formatted workbooks; PDF and Word reports are designed for viewing and sharing.

10. Whole-site search

Partial-name searching

Enter part of a player, referee, team or manager name to receive matching results.

Pages and competitions

Search also returns relevant website pages and competition links.

Current and historical players

Current squad records and historical scorer records can both appear.

Direct navigation

Each result links to the most relevant team, player, competition or statistics page.

11. Website statistics

Overall page views

The public Web Stats page shows this week, the last 7, 30 and 90 days, the last year and all-time totals.

Private detail

Detailed page, visit, download, report, sponsor-link click and search-result activity is available only in the admin area.

Visitor privacy

A page view is not a unique visitor. Detailed visits are anonymous and do not identify individuals.

12. Contacting the ECFA

General query

Send a question with a name, message and either an email address or mobile number.

Sponsorship enquiry

Contact the league about supporting ECFA competitions and activities.

Apply to join the league

Read the registration criteria, confirm suitability and submit team, church, minister and mission information.

Report an error

Tell the ECFA about incorrect information, a broken page or another website problem. Contact details are optional.

Request a feature

Suggest an improvement or new website facility through the same reporting form.

Attach supporting evidence

Add an image, PDF, text or Word file to help explain an enquiry or website problem without describing every detail.

Confirmation

The website confirms when a message or application has been successfully submitted.

Privacy note Public pages display league information intended for general visitors. Private administration tools, contact messages and internal discipline-management functions require an authorised login and are not covered by this public guide.

13. Weekly Predictions

Weekend and midweek fixtures, with all voting times in UK time.

Watch a fictional match

Choose a fixture for a 3D match with moving players, passing, runs and defending. The close Broadcast camera follows the ball; switch to Behind goal, pause, resume, select Fast or use End game to jump to the final score. Badges, confirmed kits (Liberton purple), commentary and highlights accompany random fictional results. Published sponsor logos appear on pitchside boards. Assigned referees feature in fictional yellow and red card events; simulated cards do not affect official discipline records. Real records stay unchanged.

Submit your scores

Voting opens Monday 5am. Weekend games close Friday 10pm; midweek games close 12 hours before kick-off. Submit all open games without an account. Entries are final and remembered in this browser. Cup picks cover 90 minutes.

See community picks

Live home/draw/away percentages are visible only after submitting. After each deadline, final percentages replace entry boxes and become public. Future weeks open on Monday. Real results appear when recorded. This is an informal anonymous poll.

Find the page

Use Predictions in the top navigation or Weekly Predictions on the Match Hub. Team names and match details link to their usual pages.

Real player names, fictional highlights

Simulated scorers and assists appear beneath their team names on the scoreboard as goals happen. Real squad names also appear in fictional match commentary. Player names link to their profiles. The match is a fun simulation; its goals and assists are not official records. A fictional Man of the Match appears at full time, including when using End game.

Quick-start guide

Four common journeys for first-time visitors.

1	**Find this weekend’s games**	Open Match Hub, select the relevant date and tap a fixture for more detail.
2	**Check a league position**	Open Competitions, select the league and review the standings table.
3	**Look up a person**	Open Search, type at least part of the player or referee name and select a result.
4	**Download information**	Open Downloads, choose the required dataset or individual report and select a format.
